

AI Prompts

✓ Your Given Instructions (Organized)

1. Layout Design

- Use **Bootstrap 5** for styling and responsiveness.
- Overall layout inspired by **Alibaba's e-commerce design** (mini prototype).
- Top navigation bar must include **logo + menu items**.
- Add a **fixed header row** with categories and buyer options.

2. Hero Section (Main Banner)

- Large **background image** as the hero.
- Overlay a **search bar** with camera icon + search button.
- Below the search bar, include **"Frequently searched" tags** as small buttons.

3. Features Row

- A **horizontal scrollable row** of feature boxes.
- Each feature box should contain **an icon, title, and short description**.

4. Category Buttons Section

- Use **round button style** for categories.
- Each button must include a **Bootstrap icon + text** (Electronics, Mobiles, Laptop, etc.).
- Add **hover effects** for better interactivity.

5. Product Grid

- Use **JavaScript** to dynamically render product cards.
- Each product should display **image, name, price, and supplier**.

6. Footer Section

- Footer should display **dynamic copyright year**.
- Include simple links (About, Help, Terms).

7. Extra Requirements

- Ensure the website is **fully responsive**.
- Keep the design **clean, modern, and user-friendly**.
- Images can be sourced from **Pinterest/Unsplash** smartly.
- Use **custom CSS** to refine the design.
